SUBJECT INDEX

Volume 34

Acid clouds 369
acidic deposition
  simulated 71, 167, 233
  wetlands 339
Activated sludge system 1
Aeromonas hydrophile
  thermal plume 199
Aeronomy coflora 125
Aerobic digestion 399
Aerosol
  atmospheric 263
  sulfate 369
Agricultural burning
  Hawaii 111
  smoke 111
Air spora
  library 125
Al
  lake chemistry 207
  pond chemistry 325
Algae

metals 11
Alkali plant
  lake discharge 285
Alkaline fog
  water chemistry 183
Alkaline particulates 183
Alum
  lake chemistry 207
Animal feces
  streptoccal content 273
Anion mobility
  soil 167
Atmospheric pollutants 263
  forest deposition 135

Bacterium
  thermal plume 199
Base cation leaching 167
Be
  coal combustion 363
Bioindicators
  algae metals 11
BOD
  sewage oxcidation pond 191
Bulk deposition
  forest 135

Cd
  algae content 11
  mine tailings 31
  mountainous ecosystem 385
  soil and plant pollution 347
  soil sorption 293, 305
Chlorinated pesticides
  groundwater 79, 97
  snowmelt 79
Chlorophyll
  Hg effects 439
Ciliates
  waste stabilization pond 245
Cladina stellaris
  simulated acid deposition 71
Cloudwater sulfate 369
Co
  soil and plant pollution 347
Coal combustion
  Be emission 363
  Hg emission 145
Cr
  soil and plant pollution 347
Crops
  Hg and Se pollution 353
Cs^{137}
  sediment 45
Cu
  algae content 11
  mountainous ecosystem 385
  sewage sludge 55
  soil and plant pollution 347

Dolomitic Pb mine tailings 31

E. Coli
  R-plasmid transfer 409
  sterile soil survival 409

Fe
  plant and soil pollution 347
Fog
  alkaline 183
Forest edge
  atmospheric pollutant deposition 135
Fungal allergy 125

Gases
  atmospheric 263

Gastropods
metal indicators 11
Groundwater
chlorinated pesticides 79, 97
PAH 79, 97

Hawaii
agricultural burning 111
Hg
crop pollution 353
natural air background 145
plant content 439
rainout 145
transport 145
Hill activity
Hg effects 439

Karst
chlorinated pesticides 79, 97
PAH 79, 97

Lake
alkali plant discharge 285
stratification 285
turnover 285
Lake chemistry
Al 207
Lakewater
streptoccal population 273
Langmuir model
Cd sorption 305
Leachates
base cations 167
mine waste 31
soil nutrients 167
Library
air spora 125
Lichen
simulated acid deposition 71
Litter buffering
decomposition 415
mineralization 415
wetland 339

Metals
algae 11
atmospheric gases 263
crop pollution 353
mine wastes 31
mountainous ecosystem 385
plant pollution index 347
sewage sludge 55
soil pollution index 347
soil sorption 293
Microbial decomposition
wetlands 339
Microcosms
soil 167
Mine wastes 31
Mineralization
litter 415
Mn
sewage sludge 55

N
atmospheric gases 263
Ni
mountainous ecosystem 385
plant and soil pollution 347
sewage sludge 55
Nitrate
atmospheric 369
NTA
sewage sludge 55

Organic C
mine waste 31

PAH
groundwater 79, 97
Karst 79, 97
snowmelt 79
Particulates
alkaline 183
biodegradation 399
Pathogen densities
thermal plume 199
Pb
algae content 11
mine tailings 31
plant and soil pollution 347
Plant
Hg scavenging 439
pollution index 347
Pond
acidification 325
sewage oxidation 191
Prairie pothole
sediment 45
Precipitation
acidic 369
Hg 145

Rainwater
chlorinated pesticides 97
PAH 97
Zn content
R-plasmid transfer
E. Coli 409

S
atmospheric gases 263
ecosystem level 415
soil content 233
Salvinia natons L.
Hg effects 439

Se
  crop pollution 353
Sediment
  bacterium content 199
  prairie pothole 45
Sewage facilities
  streptoccal population 273
Sewage oxcidation pond
  BOD 191
Sewage sludge 31
  metals 55
  NTA 55
Shellfish
  Yersinia enterocolitica 241
Sludge
  activated 1
  sewage 31
Smoke
  diffusion 111
  emissions 111
Soil
  chlorinated pesticides 97
  Hg and Se pollution 353
  PAH 97
  simulated acidic deposition 167, 233
Soil dust
  alkalinity 183
Soil pollution index 347
Soil sorption
  Cd 293
Soil, sterile
  E. Coli survival 409
Snowmelt
  chlorinated pesticides 79
  PAH 79
  pond effects 325
Spora
  library 125
Stratification 191
  lake 285
Stream
  acidic surges 429
Streptoccal population
  sewage 273
  water 273
Sulfate
  atmospheric 369

Thermal power plant
  Be pollution 363
Throughfall
  forest 135
Tital marshes
  acidic precipitation effects 339
Transport
  atmospheric Hg 145
Turnover
  lake 285

Upland stream
  acid surges 429

Vegetables
  Hg and Se pollution 353

Waste stabilization pond
  ciliate content 245
Water quality
  mine waste 31
  streptoccal content 273
Wetland
  acid rain 339
  sedimentation rate 45

Yersinia enterocolitica
  shellfish content 241

Zn
  algae content
  mine tailings 31
  plant and soil pollution 347
  mountainous ecosystem 385
  river water 315
  sewage sludge 55
  soil sorption 305
